BABY BASE Series B084-242TT

SYSTEM

Maximum 84 watt compact fluorescent unit for studio back lighting or location lighting applications. Lamps in the fixture may alternate between (2) 26, 32 or 42 watt Triple Tube fluorescent lamps. Wide Zone Screen and Barn Doors are available to adjust the beam angle. All 230 volt fixtures are RoHS compliant. UL/CUL/CE Listed

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number 285-QX 4-pin accepts 26, 32 and 42 watt triple tube lamps.

Electrical: Unit contains (1) 2-lamp ballast to drive two 26, 32 or 42 watt lamps for a maximum of 84 lamp watts per fixture. Power factor shall be $>.97$ with a class A sound rating and THD of $<20\%$. Power entry on unit includes on/off switch, fuse holder with fuse (for protection against power surges), spare fuse and IEC connector. The 0-10 Analog Dim unit is provided with integral dimming control.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (2) 42 watt Triple Tube Lamps
- (1) 2-lamp Ballast
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

LAMPS

42 watt CFTR42W/GX24Q/830
3000K, 10,000 Hours Lamp Life
CRI: 82
Light output: 3200 LM/Lamp

OPTIONS (Must Specify Each)

ExceLED Series ExceLED 25

SYSTEM

Powerful 25 watt LED fixture is ideal for broadcast or studio general accenting, key lighting or back lighting. Generates a concentrated beam of light with even coverage of 3200K light (5600K optional). Light levels can compete with many 500 or 650 watt Fresnel fixtures in spot beam focus. Additional control achieved with gel frame and barn door accessory options.

cCSAus Certified for USA and Canada. CE in process.

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester powder coat finish.

LED Cubes: The 25 watt unit has (1) Cube with (9) LED optical modules. The concentrated beam provides an ultra bright, even coverage of 3200K light (5600K optional), 85 CRI.

Electrical: Units are 120 and 230 volts 50/60 Hz. The ExceLED 25 draws 25 watts. On-board power supply and integrated dimmer. Silent operation. Power entry on unit includes on/off switch.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

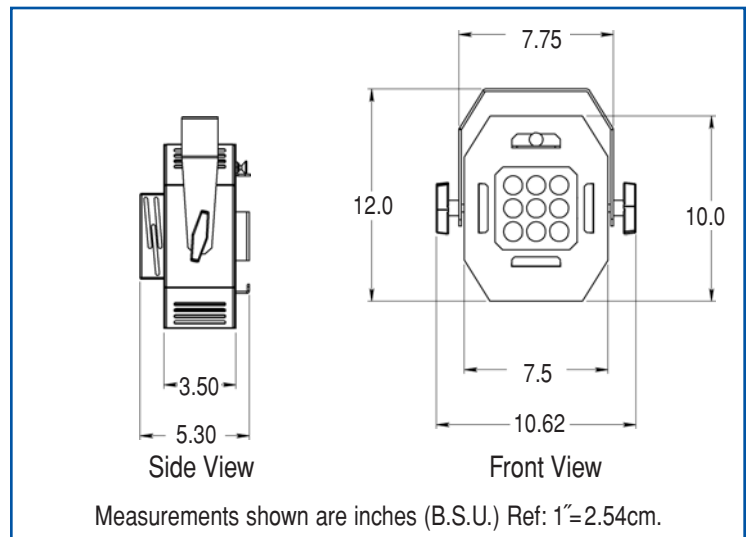

- (1) LED Cube
- 16' Power cord with NEMA5-15 3-prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

* Light level readings were measured in foot-candles (fc) and converted to Lux using the conversion factor of 1 fc = 10.765 Lux. Values shown are light levels on centerline. Reference: Meter used – Minolta T-1 Illuminance meter. LEDs 3200K. Ambient temperature in test studio 75F ± 3F. Distance measurements converted to feet using 1ft. = .305 m. Original photometric data on file at the factory.

** Spread Lens "Beam Spread" size is determined when light levels reach 1/10 of the light levels at the center of the beam.

ExceLED Series ExceLED 50

SYSTEM

Powerful 50 watt LED fixture is ideal for broadcast or studio general accenting, key lighting or back lighting. Generates a concentrated beam of light with even coverage of 3200K light (5600K optional). Light levels provided by this unit come close to many 1000 watt Fresnel fixtures in spot beam focus. Additional control achieved with gel frame and barn door accessory options.

cCSAus Certified for USA and Canada. CE in process.

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester powder coat finish.

LED Cubes: The 50 watt unit has (2) Cubes with (9) LED optical modules in each. The concentrated beam provides an ultra bright, even coverage of 3200K light (5600K optional), 85 CRI.

Electrical: Units are 120 and 230 volts 50/60 Hz. The ExceLED 50 draws 50 watts. On-board power supply and integrated dimmer. Silent operation. Power entry on unit includes on/off switch and IEC connector.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (2) LED Cubes
- 16' Power cord with NEMA5-15 3-prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

** Spread Lens "Beam Spread" size is determined when light levels reach 1/10 of the light levels at the center of the beam.

ExceLED Series ExceLED 100

**Adjustable
Beam!**

SYSTEM

Powerful 100 watt LED unit with adjustable beam spread. An adjustment knob at the back of the fixture easily rotates to move from spot thru flood mode and locks in place. Generates a concentrated beam of light with even coverage of 3200K light (5600K optional). Provides the long throw and high light levels required in large production studios, theaters and similar applications. It outperforms a typical 1000 watt Fresnel fixture in spot beam focus and comes very close to competing with many 2K fixtures. The daylight option easily replaces a 400 watt HMI fixture. Additional control achieved with gel frame and barn door accessory options.
cCSAus Certified for USA and Canada. CE in process.

SPECIFICATION

Housing: Constructed of .063 formed aluminum, then coated with black textured TGIC polyester powder coat finish.

LED Cubes: (4) Cubes with (9) LED optical modules in each, pivot from center to adjust the beam spread. The concentrated beam provides an ultra bright, even coverage of 3200K light (5600K optional), 85 CRI.

Electrical: Unit input is 120 and 230 volts 50/60 Hz. Draws 100 watt with on-board power supply and integrated dimmer. Silent operation. Power entry on unit includes on/off switch and IEC connector.

Mounting: Provided with .187 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

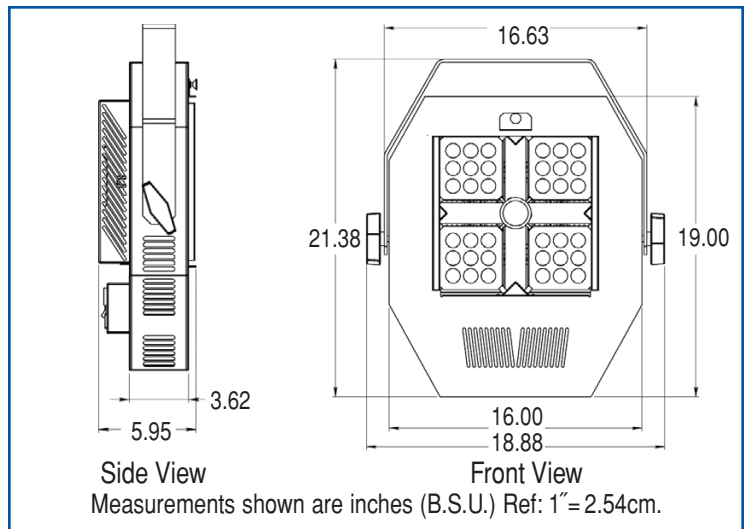

- (4) LED Cubes
- 16' Power cord with NEMA5-15 3-prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify one)

LED OPTICS

Videssence™

ExceLED Series ExceLED 225 – Nine Light

SYSTEM *Adjustable Beam!*

Powerful 225 watt LED unit with adjustable beam spread provides an alternate to high wattage “nine lights.” Two adjustment knobs at the top of the fixture easily slide to move the left and right three cubes independent of the center row and lock into place. Generates a concentrated beam of light with even coverage of 3200K light (5600K optional). Provides the long throw and high light levels required for film and video in large production studios and similar applications. Additional control is achieved with gel frame and spread lens accessory options.

UL/CUL/CE Listing in process

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester coat finish.

LED Cubes: (9) Cubes with (9) LED optical modules in each. Left and right row of cubes pivot outward to adjust or separate the beam spread. The concentrated beam provides an ultra bright, even coverage of 3200K light (5600K optional), 85 CRI.

Electrical: Unit input is 120 or 230 volts 50/60 Hz. Draws 1.7 amps with on-board power supply. Silent operation. Each lamp switches individually. Power entry on unit includes on/off switch and IEC connector.

Mounting: Provided with .187 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

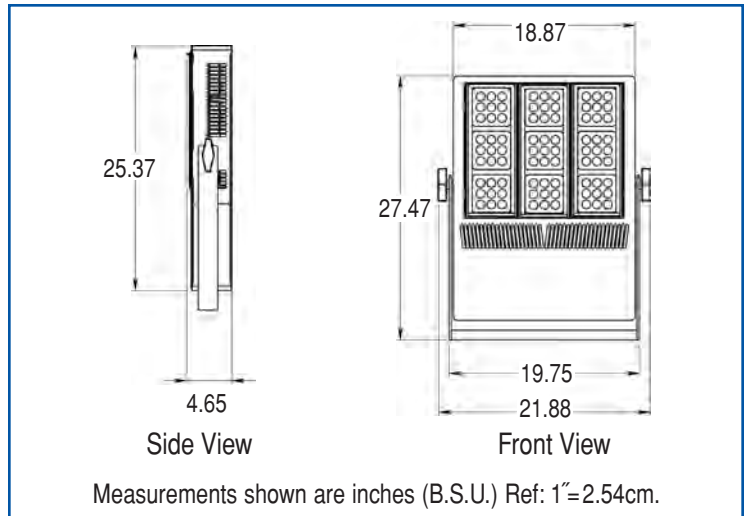

- (9) LED Cubes
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

FACELITE Series FL010 & FL010-S

SYSTEM

Powerful 10 watt, high color rendering LED niche light. The fixtures are very small, light weight and easy to handle or mount in tight quarters. They are designed to boost the vertical light levels on your face and features to separate you from the ambient lighting around you for the camera. The Osram/ Sylvania HF2 Narrow Stick LED lamp is 10 watts, with 3000K color (4000K optional) and has a rated life of 50,000 hours. Provided with brackets that may be secured to a surface with screws or with an adjustable height stand. They deliver flicker-free dimming without color shift and 85+ CRI. Power supply, with cord is 120-230 volts and U.L. listed.

SPECIFICATION

Housing: Constructed of 22 gauge CRS then coated with black textured TGIC polyester powder coat finish. Provided with frosted, spread lens gel.

LED: (1) 10 watt Osram/Sylvania HF2 Narrow Stick LEDs. They provide even coverage of 3000K light (4000K optional). 85+ CRI with 50,000 hours rated life.

Electrical: Power Supply unit is a 120 thru 230 volts 50/60 Hz transformer with 5' cord. It is 24 volt, DC Class 2, with plug for any standard electrical 120 volt outlet. UL, CUL, CE listed and RoHS compliant. Silent operation. Dimming option available.

Mounting: Provided with 22 gauge CRS adjustable mounting brackets to allow aiming that may be secured to a surface with screws. Optional Stand mounted version has weighted base with height adjustment.

Standard Fixture Includes:

- (1) LED Chip
- (1) Remote Power Supply with 5' cord
- (2) Brackets for mounting

SYSTEM

110 watt compact fluorescent multi-purpose fixture provides even coverage for studio, ENG or OB lighting applications. Wide range of beam angles and intensity achieved through variable configurations of accessory options. All 230 volt fixtures are RoHS compliant.

UL/CUL Listed

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester powder coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number 2G11 4-pin.

Electrical: Unit contains (1) 2-lamp ballast to drive two 55 watt lamps for a total of 110 lamp watts per fixture. Power factor shall be $>.97$ with a class A sound rating and THD of $<20\%$. Power entry on unit includes on/off switch, fuse holder with fuse (for protection against power surges), spare fuse and IEC connector.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (1) 2-lamp Ballast (Specify Voltage)
- 16' power cord with NEMA5-15 (3) prong plug

**Stationary & Focussable
Beam Fresnel!**

Little VID Series LV050 & LV050-F

SYSTEM

Compact, powerful 50 watt, high color rendering LED Fresnel fixtures. The stationary version has permanent barn doors to shield or focus the light intensity. The focussable version, allows additional control achieved with 4" gel frame and barn door accessory options. A manual slide bar at the top of the fixture adjusts the beam and locks in place. Both provide the single shadow characteristics essential to Fresnel fixtures while using a fraction of the power of tungsten units. The fixtures are very small, light weight and easy to handle or mount in tight quarters. They deliver flicker-free dimming without color shift and amazing color rendering at 96+ CRI. Heat dissipation is designed with a unique passive thermal cooling system to assure maximum LED light output without internal fans. Provided with 12' cord to remote driver box that allows easy programming for dimming or DMX control. Power is shut off to the driver and LED when dimmed to ZERO with DMX so no external relay or power cut off is required. cCSAus for USA/Canada and CE Listing in process

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black and silver textured TGIC polyester powdercoat finish.

LED: (1) 50 watt LED chip provides a concentrated ultra bright beam with even coverage of 3200K light (5600K optional). 96+ CRI.

Electrical: Unit input is 120 thru 230 volts 50/60 Hz. It draws 50 watts with remote power supply control for dimming or DMX. Silent operation. Power to remote with powerCON locking connectors and on/off switch.

Mounting: Provided with .125 aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

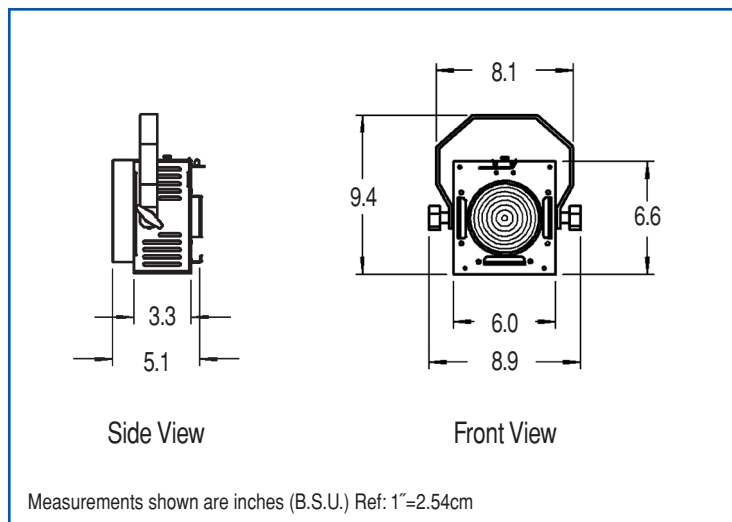

- (1) LED Chip
- 12' Cord to Remote power supply.
- (1) Remote Power Supply with OB or DMX Dim
- (2) C-Clamp or 5/8" Stand Adapter (Specify One)

MODKITS

SYSTEM

Light weight kit for easy handling features two mini versions of our Modular Series fixtures. Provided complete with stands, remote ballast box, two sets of lamps (daylight and tungsten), power cords and mounting adapters. Soft case has separate compartments to protect the contents during travel. All 230 volt fixtures are RoHS compliant.

Double Fixture MODKIT KM2055-SB MODKIT

Kit Includes:

- (2) M055-155BX 120 or 230 Volt Non-Dim Fixture 55 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications. Fixture has hardwired 15' power cord.
- (1) PD-2X55/CB-P16 Power Supply with 16' Cord
- (2) MT-LOS-KH folding Heavy Kit Stand
- (2) MT-MH-BS 5/8" Baby Spud mounting adapter
- (2) L-BX55/32 Tungsten Color 55 watt Biax Lamp
- (2) L-BX55/55 Daylight Color 55 watt Biax Lamp
- (1) CS-KM2055-SB Soft Bag

Overall size: 30" L x 9" W x 9" Ht.

FIXTURES M055-155BX

This is a versatile, short throw location lighting fixture. It is very small, light-weight and easy to handle or mount in tight quarters. The extruded aluminum housing has a textured black TGIC polyester powder coat finish. It utilizes one 55 watt Fluorescent Biax lamp. The fixture is hardwired with a 15' cord that plugs into the power supply box with remote ballast. Size: 24" L x 3.3" W x 6.4" Ht.

CASE Soft Bag Case

Sport bag style padded case is made of heavy duty PVC backed polyester. This highly water resistant, durable material covers 1/2" foam padding inside and out. Separate compartments are provided to protect the contents during travel.

Double pull zipper allows pad-lock security if desired. Heavy-duty handgrips and shoulder strap with grip pad allow versatile carrying options. Fully loaded kit is only 25 pounds.

MODULAR Series M110-255BX

SYSTEM

110 watt compact fluorescent unit for low ceilings and grid installations. The interlocking dove-tail construction allows for building of multiple fixture configurations, providing longer throw ranges. All 230 volt fixtures are RoHS compliant.

UL/CUL/CE Listed

SPECIFICATION

Housing: Extruded aluminum fixture is finished with black textured TGIC polyester powder coat. Spread lens is high impact, U.V. stabilized acrylic which also provides lamp protection.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number 2G11 4-pin.

Electrical: Unit contains (1) 2-lamp ballast to drive two 55 watt lamps for a total of 110 lamp watts per fixture. Power factor shall be $>.97$ with a class A sound rating and THD of $<20\%$. Power entry on unit includes fuse holder with fuse (for protection against power surges), spare fuse and IEC connector.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

POWER KEY Series P055-155BX

New External Adjustment!

SYSTEM

Powerful 55-watt compact fluorescent unit with adjustable beam spread. An external slide knob at the back of the fixture allows a free range of adjustment from 60° to a 90° beam spread. Provides a concentrated, even coverage for studio or location lighting applications without added accessories. Additional control achieved with zone screen accessory option. All 230 volt fixtures are RoHS compliant. UL/CUL/CE Damp Location Listed.

U.S. Patent #6,945,671

SPECIFICATION

Housing: Constructed of .063 formed aluminum, then coated with black textured TGIC polyester coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18-gauge leads. Model number 2G11 4-pin. Mounted to adjustable bracket to alter beam spread.

Electrical: Unit contains (1) 1-lamp ballast to drive a 55-watt lamp for a total of 55 lamp watts per fixture. Power factor shall be >.97 with a class A sound rating and THD of <20%. Power entry on unit includes on/off switch, fuse holder with fuse (for protection against power surges), spare fuse and IEC connector.

Mounting: Provided with .125 welded aluminum yoke which allows vertical or horizontal mounting. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Light level readings were measured in foot-candles (fc) and converted to Lux using the conversion factor of 1 fc = 10.765 Lux. Values shown are light levels on centerline. Reference: Meter used—Minolta T-1 Illuminance meter. Lamps: 3000 Kelvin. Ambient temperature in test studio 75F ±3F. Distance measurements converted to meters using 1ft = .305m. Original photometric data on file at the factory. Specifications subject to change without notice or obligation.

POWER KEY Series P110-255BX

New External Adjustment!

SYSTEM

Powerful 110 watt compact fluorescent unit with adjustable beam spread in each cell. External slide knobs at the back of the fixture allow a free range of adjustment from 60° to a 90° beam spread. Provides a concentrated, even coverage for studio or location lighting applications without added accessories. Additional control achieved with accessory options. All 230 volt fixtures are RoHS compliant.

UL/CUL/CE Damp Location Listed

U.S. Patent # 6,945,671

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester powder coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number 2G11 4-pin. Mounted to adjustable bracket to alter beam spread.

Electrical: Unit contains (1) 2-lamp ballast to drive two 55 watt lamps for a total of 110 lamp watts per fixture. Power factor shall be $>.97$ with a class A sound rating and THD of $<20\%$. Power entry on unit includes on/off switch, fuse holder with fuse (for protection against power surges), spare fuse and IEC connector.

Mounting: Provided with .125 welded aluminum yoke which allows vertical or horizontal mounting. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (2) 55 watt Biax Lamps
- (1) 2-lamp Ballast (Specify Voltage)
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

Videssence™

SHOOTER KIT

SYSTEM

Light-weight kit for easy handling, features two small fluorescent Shooter Series fixtures utilizing (1) 57 watt Biax Q/E lamp and one mini PAR 20 7-watt LED Shadowcaster fixture. Provided complete with stands, lamps, power cords and mounting adapters. Soft case has separate compartments to protect the contents during travel.

Triple Fixture SHOOTER KIT

KSH2057P-SB SHOOTER KIT

Kit Includes:

- (2) SH057-157BXQE 120 or 230 Volt Non-Dim Fixture. 57 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
 - (1) SC050-150TH 120 or 230 Volt Fixture. 50 watt PAR 20 halogen fixture for artistic design.
 - (1) BD-SC050 Barn Door
 - (1) GF-SC050 Gel Frame
 - (3) MT-LOS-K folding Kit Stand
 - (3) MT-MH-BS 5/8" Baby Spud mounting adapter
 - (3) CB-P-16 16' Standard Power Cord
 - (2) F57QBX/830/A/4P/EOL Tungsten Color 57 watt Biax Q/E Lamp
 - (1) LED, 7-watt, PAR 20, 20° Flood (Standard), OPTIONAL: Halogen
 - (1) CS-KSH2057-SB Soft Bag
- Overall size: 30"L x 13"W x 12"Ht.

FIXTURE SH057-157BXQE SHOOTER

This is a versatile, short throw location lighting fixture. It is very small, light weight and easy to handle or mount in tight quarters. The 22 gauge CRS housing has a textured black TGIC polyester powder coat finish. Permanent Intensifier/Barn Doors can focus or shield the light intensity. It utilizes (1) 57 watt Biax Q/E lamp.

Size: 10"L x 6"W x 6-1/2"Ht.

CASE Soft Bag Case

Sport bag style padded case that is made of heavy-duty PVC backed polyester. This highly water resistant, durable material covers foam padding inside and out. Separate compartments are provided to protect the contents during travel.

Double-pull zipper allows padlock security if desired. Heavy-duty handgrips and shoulder strap with grip pad allow versatile carrying options. Fully loaded kit is only 30 pounds.

FIXTURE SC050-150TH SHADOWCASTER

This miniature, low wattage, halogen fixture provides an artistic edge to the kit by adding hard shadows or creating additional depth in the image. It is very small, light weight and easy to handle or mount in tight quarters. Fixture is black and comes standard with Gel Frame and Barn Doors for effects and control. It utilizes (1) 50 watt Halogen PAR 20 Flood lamp. Size: 7"L x 4"W x 5"Ht.

SOFTKEY LED Series SK025

SYSTEM

25 watt LED units for Video/Tele Conferencing multi use spaces and distance learning. The recessed mount 12" x 12" housing shrouds an adjustable fixture that provides controlled aiming for key, or fill lighting. The adjustable fixture is tension held and rotates 359° and tilts 130°. A variety of beam angles and intensity may be achieved by utilizing spread lens gel options.

cCSAus Certified for USA and Canada. CE in process.

SPECIFICATION

Housing: Constructed of 20 gauge CRS coated with black with an extruded trim in white. Both are TGIC polyester powder coat finish.

LED Cubes: The 25 watt unit has (1) Cube with (9) LED optical modules. The concentrated beam provides an ultra bright, even coverage of 3200K light (5600K optional). 85 CRI.

Electrical: Units are 120, 230 or 277 volts 50/60 Hz. The unit draws 25 watts and is hard wired.

Mounting: Unit may be ordered recessed for T-Bar or Gypsum ceiling installations.

Fixture Includes:

- (1) LED Cube
- (1) Dimming Driver of your choice.
- (1) Gel Frame, Square
- (1) Spread Lens Gel of your choice.

3200K LEDs	Lux	2767	786	344
	** Beam Spread	34" Dia.	75" Dia.	103" Dia.

* Light level readings were measured in foot-candles (fc) and converted to Lux using the conversion factor of 1 fc = 10.765 Lux. Values shown are light levels on centerline. Reference: Meter used – Minolta T-1 Illuminance meter. LEDs 3200K. Ambient temperature in test studio 75F ± 3F. Distance measurements converted to feet using 1ft = 0.305 m. Original photometric data on file at the factory.

** Spread Lens "Beam Spread" size is determined when light levels reach 1/10 of the light levels at the center of the beam.

SOFTKEY Series SK110-255BX

SYSTEM

110 watt compact fluorescent unit for Video/Tele Conferencing multi use spaces. The recessed or surface mount 2' x 2' housing shrouds an adjustable fixture that provides controlled aiming for key, or fill lighting. The adjustable fixture is tension held and rotates 359° and tilts 130°. A variety of beam angles and intensity may be achieved by utilizing accessory options. All 230 volt fixtures are RoHS compliant.

UL/CUL/CE Listed

SPECIFICATION

2x2 Shroud: Constructed of 20 gauge CRS coated with white TGIC polyester powder coat finish.

Fixture Housing: Constructed of .063 formed aluminum then coated with white TGIC polyester powder coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number 2G11 4-pin.

Electrical: Unit contains (1) 2-lamp dimming ballast to drive two 55 watt lamps for a total of 110 lamp watts per fixture. Power factor shall be >.97 with a class A sound rating and THD of <20%. Unit will be hard wired.

Mounting: Unit may be ordered recessed for T-Bar or Gypsum ceiling installations or Surface mounted.

Fixture Includes:

- (2) 55 watt Biax Lamps
- (1) 2-Lamp Ballast (Specify Voltage)
- (1) White Zone Control Screen (Wide)

SECTION / LIGHT LEVELS AT VIEW 3

The task of providing proper lighting for a Video conference space is very simple – Ask us to do it for you! But if you would rather do it yourself, here are the problems and some suggested solutions.

1) **Provide lighting for the camera in the proper quantity, quality and angle.** The light should come from an angle between 45° and 60° vertical (Dwg #1). Horizontally, light should also be cast on the face from an angle in addition to front (Dwg #2). This will assure that minimum shadows are created in the eye sockets and under the nose and chin.

Dwg #1

Dwg #2

Dwg #3

The amount of light falling on the face of the subject measured vertically should be 50-75 F.C. (Dwg #3). The quality of light suitable for video cameras can be assured by using fluorescent lamps of 3000° K (Color Temperature) with a CRI (Color Rendering Index) of 82+.

2) **Provide minimal lighting for the screen or monitor for good screen contrast and image sharpness.** The wall where the screen or monitor is located should have as little illumination as possible. No reflected glare should appear on the screen or monitor to inhibit viewing.

3) **Provide lighting for the back wall and to a lesser extent, the side walls to balance the brightness with the rest of the room.** Doing this will prevent the camera from iris-ing* on the back or side walls that are too dark or too bright and then allowing too much or too little light in the camera resulting in the appearance of over or under lighting the subject (Dwg #4). Generally the wall finishes and furniture should be very neutral. The reflectance value of these colors and surfaces should be around 30-40%. Light level ratios from the participant to the back wall should be within 3 to 1 while the side walls can be 5 to 1.

Dwg #4

Solutions – To accomplish the above requires light fixtures that provide a wide horizontal component. The SOFTLITE Series fixture Videssence has designed for this use is a

Dwg #5

recessed, indirect 2' x 2' with two 55 watt Biax lamps (Dwg #5). This fixture produces an asymmetric distribution (Dwg #6) that provides a large horizontal throw in three directions (Dwg #7). The tri-directional performance of this product often eliminates the need for additional lighting on back and side walls, so the second consideration is handled also. Very little light is directed

Side View
Light Throw

Dwg #6

Plan View
Light Throw

Dwg #7

behind the SOFTLITE Series fixtures so they do not wash out the viewing screen or glare into the camera.

Dual Function and Participant Comfort – The SOFTLITE Series is provided standard with a dimming ballast so you may adjust the light levels for good picture quality and have low light level illumination for standard conferencing functions. Combining the low heat of fluorescent lamps with an indirect optical system, the participants in the room will have optimum comfort visually and environmentally.

SOFTWASH LED Series SW022 & SW044

SYSTEM

22 and 44 watt LED wall wash unit for Video/Tele Conferencing multi-use spaces. Provides even, unscalped lighting of the side and back walls to maintain proper lighting ratios from the room surfaces to the conference participants to ensure an excellent video image.

c/CSA/us IC Listed.

SPECIFICATION

Housing: Constructed of 22 gauge CRS coated with white TGIC polyester powder coat finish.

Reflector: One piece, formed reflector is high purity aluminum (99.9%) with 97% reflectance finish.

LED Module: Utilizes (2) or (4) of Sylvania's 11 watt, 3000K distributed array LED modules that are 80+ CRI and rated up to 50,000 hours. Indirect optical design shields the LEDs from view. (3500K or 4000K optional)

Electrical: Units are 120-277 volts 50/60 Hz. They draw 22 or 44 watts and are hard wired.

Mounting: Unit may be ordered recessed for T-Bar or Gypsum ceiling installations. Also available in Surface or Pendant mount.

Fixture includes:

- (2) or (4) 11 watt, LED modules
- (1) Dimming Driver of your choice

SOFTWASH Series SW055-155BX

SYSTEM

55-watt compact fluorescent wall wash unit for Video/Tele Conferencing multi-use spaces. Provides even, unscaloped lighting of the side and back walls to maintain proper lighting ratios from the room surfaces to the conference participants to ensure an excellent video image. All 230 volt fixtures are RoHS compliant.

UL/CUL/CE Damp Location listed.

SPECIFICATION

Housing: Constructed of 22 gauge CRS coated with white TGIC polyester powder coat finish.

Reflector: One piece, formed reflector is high purity aluminum (99.9%) with 95% reflectance finish.

Socket: Molded white high-strength thermoplastic with push wire connections and 18-gauge leads. Model number 2G11 4-pin.

Electrical: Unit contains (1) 1-lamp, dimming ballast to drive one 55-watt lamps for a total of 55 lamp watts per fixture. Power factor shall be > .97 with a class A sound rating and THD of <20%. Unit will be hard wired.

Mounting: Unit may be ordered recessed for T-Bar or Gypsum ceiling installations. Also available in Surface or Pendant mount.

Fixture includes:

- (1) 55-watt Biax Lamps
- (1) 1-lamp Dimming Ballast (Specify Voltage)

LAMPS

(1) 55-watt FT55W/2G11/830
3000K, 12,000 Hours Lamp Life
CRI: 82
Light output: 4800 LM/Lamp

OPTIONS (Must Specify Each)

Ballast	120 VAC/60Hz HPF Electronic Dimming 230 VAC/50-60Hz 0-10V HPF Electronic Dimming 277 VAC/60Hz HPF Electronic Dimming
Mounting	T-Bar Gypsum/Hard Ceiling Surface Pendent (add "P" and length of pendent Example – SW055-155BX-S-P24")

* Not available in 230 volt.
Measurements shown are inches (B.S.U.) Ref: 1" = 2.54cm

PHOTOMETRICS MODEL SW055-155BX

Light readings are shown in footcandles and were calculated with Lighting Analysts' AGI 32, utilizing independent test lab photometric file #4009A1.IES. Readings are initial levels and the reflectances of the room for calculation purposes were Ceiling: .80, Walls: .50 and Floor: .20. To convert levels to Lux, use the conversion factor of 1 fc = 10.765 Lux. Original photometric data on file at the factory. Specifications subject to change without notice or obligation.

UNIVERSAL MOUNT Series UM2x2

SYSTEM

Mounting unit for T-Bar installations. This universal 2' x 2' unit allows easy mounting of studio type fixtures in architectural spaces with T-Bar ceilings. Any manufacturers studio fixture, under 35 lbs. can mount at the fixture yoke to this unit. Yoke is attached to mounting stud and secured with nuts. Mounting location can adjust side to side and forward and back for precise placement.

SPECIFICATION

Housing: Constructed of reinforced, 20 gauge CRS then coated with white TGIC polyester coat finish.

Electrical: Standard Edison plug receptacle is provided for 120 volts installations. Adaptors may be used for other plugs. Amps available are 15 for 120 volt and 7.83 for 230 volt.

Mounting: Interior fixture mounting stud adjusts side to side and forward and back for precise fixture placement within the 2 x 2 housing. Maximum weight allowance for fixture (by others) is 35 lbs. T-Bar 2 x 2 housing may also be ordered for metric installations.

Mounting Unit Includes:

- (1) Adjustable Mounting Stud
- (1) 120V Edison Plug to power Fixture
- (2) T-Bar Mounting Brackets

V-BEAM Series V168-442TT

SYSTEM

168 watt compact fluorescent unit for key lighting, provides even coverage for short throw studio or location lighting applications. Wide range of beam angles achieved through variable configurations of accessory options. All 230 volt fixtures are RoHS compliant.

UL/CUL/CE Listed

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester coat finish.

Reflector: Formed .020 high purity aluminum (99.9%) reflector material with 95% reflectance finish.

Socket: Molded white high strength thermoplastic with push wire connections and 18 gauge leads. Model number GX24q4 4-pin.

Electrical: Unit contains (2) 2-lamp ballasts to drive four 42 watt lamps for a total of 168 lamp watts per fixture. Power factor shall be $>.97$ with a class A sound rating and THD of $<20\%$. Power entry on unit includes on/off switch, fuse holder with fuse (for protection against power surges), spare fuse and IEC connector.

Mounting: Provided with .125 welded aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (4) 42 watt Triple Tube Lamps
- (2) 2-lamp Ballast (Specify Voltage)
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

Light level readings were measured in foot-candles (fc) and converted to Lux using the conversion factor of 1 fc = 10.765 Lux. Values shown are light levels on centerline. Reference: Meter used—Minolta T-1 Illuminance meter. Lamps: 3000 Kelvin. Ambient temperature in test studio 75F ±3F. Distance measurements converted to feet using 1ft = .305m. Original photometric data on file at the factory. Specifications subject to change without notice or obligation.

VIDFILL Series Softlight VF050

SYSTEM

Powerful, compact 50 watt, high color rendering LED soft light fixture. The Vidfill provides a large, smooth wash of soft, even, shadow-less light. Light levels compare with many 1000 watt quartz soft lights while using only 56 watts and producing tremendously less heat. Indirect optical design and internal diffusing lens shields the talent from glaring LEDs resulting in comfortable, cool fill lighting for use in small television, studio or motion picture sets. They deliver flicker-free dimming without color shift and amazing color rendering at 96+ CRI. Unique passive thermal cooling system assures maximum LED light output and quiet operation while avoiding the noise and failure of internal fans. Control at the back allows easy programming for DMX control and dimming. To ensure the full life of your components, the power is shut off to the driver and LED when dimmed to ZERO with DMX so no external relay or power cut off is required. Additional control achieved with snoot and gel frame options.

cCSAs for USA/Canada and CE Listing in process

SPECIFICATION

Housing: Constructed of .063 formed aluminum then coated with black textured TGIC polyester powder coat finish.

LED: (1) 50 watt LED chip provides a broad, smooth, shadow-less beam with even coverage of 3200K light (5600K optional). 96+ CRI and 50,000 Hours of Life.

Electrical: Unit input is 120 thru 230 volts 50/60 Hz. It draws 56 watts with on-board power supply and integrated dimmer. Silent operation. Power to unit includes powerCON in and out locking connectors and on/off switch. Control for DMX and dimming at the back of fixture.

Mounting: Provided with .187 aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (1) LED 50 watt Chip
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp or 5/8" Stand Adapter (Specify One)

VIDNEL Series VN080

**Adjustable
Beam Fresnel!**

SYSTEM

Powerful 80 watt, high color rendering LED Fresnel fixture. It provides the single shadow and focusing characteristics essential to Fresnel fixtures while using a fraction of the power of tungsten units. The fixture generates a strong directional beam of adjustable light with even coverage of 3200K color (5600K optional). It also delivers flicker-free dimming without color shift and amazing color rendering at 96+ CRI. A manual slide bar at the side of the fixture adjusts the beam and locks in place. Dual copper pipe heat sink with integrated ultra-quiet axial fan assures maximum LED light output. Magnetic stabilizer ensures smooth fan operation in any position. A simple touch pad on the side allows easy programming for DMX control and dimming. Fixture shuts off power to the integral driver when dimmed to ZERO in DMX mode so no external relay or power cut off is required. Additional control achieved with 4" gel frame and barn door accessory options. cCSAus for USA/Canada and CE Listing in process.

SPECIFICATION

Housing: Constructed of .063 formed and extruded aluminum then coated with black and silver textured TGIC polyester powder coat finish.

LED: (1) 80 watt LED chip provides a concentrated ultra bright beam with even coverage of 3200K light (5600K optional). 96+ CRI.

Original photometric data on file at the factory.

VIDNEL Series VN150

**Adjustable
Beam Fresnel!**

SYSTEM

Powerful 150 watt, high color rendering LED Fresnel fixture. It provides the single shadow and focusing characteristics essential to Fresnel fixtures while using a fraction of the power of tungsten units. The fixture generates a strong directional beam of adjustable light with even coverage of 3200K color (5600K optional). It also delivers flicker-free dimming without color shift and amazing color rendering at 96+ CRI. A manual slide bar at the side of the fixture adjusts the beam and locks in place. Dual copper pipe heat sink with integrated ultra-quiet axial fan assures maximum LED light output. Magnetic stabilizer ensures smooth fan operation in any position. A simple touch pad on the side allows easy programming for DMX control and dimming. Fixture shuts off power to the integral driver when dimmed to ZERO in DMX mode so no external relay or power cut off is required. Additional control achieved with 6" gel frame and barn door accessory options. cCSAus for USA/Canada and CE Listing in process.

SPECIFICATION

Housing: Constructed of .063 formed and extruded aluminum then coated with black and silver textured TGIC polyester powder coat finish.

LED: (1) 150 watt LED chip provides a concentrated ultra bright beam with even coverage of 3200K light (5600K optional). 96+ CRI.

Electrical: Unit input is 120 thru 230 volts 50/60 Hz. Draws 162 watts with on-board power supply and integrated dimmer. Silent operation. Power to unit includes powerCON in and out locking connectors and on/off switch. Touch pad programming for control.

Mounting: Provided with robust .187 aluminum yoke. Unit may rotate vertically through the yoke and horizontally through a pipe clamp for ease of focus, and may be locked into place.

Fixture Includes:

- (1) LED 150 watt Chip
- (1) Gel Frame
- 16' power cord with NEMA5-15 (3) prong plug
- (1) C-Clamp **or** 5/8" Stand Adapter (Specify One)

BABY BASEKIT

SYSTEM

Light weight kit for easy handling features three small versions of our Baselite Series fixtures utilizing (2) 42 watt triple tube lamps. Provided complete with stands, lamps, power cords and mounting adapters. Soft case has separate compartments to protect the contents during travel. All 230 volt fixtures are RoHS compliant.

Triple Fixture BABY BASEKIT

KB3084-SB Non-Dim BABY BASEKIT

Kit Includes:

- (3) B084-242TT 120 or 230 Volt Non-Dim Fixture. 84 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
- (3) BD-B084 four leaf Barn Door
- (3) MT-LOS-K folding Kit Stand
- (3) MT-MH-BS 5/8" Baby Spud mounting adapter
- (3) CB-P-16 16' Standard Power Cord
- (6) L-TT42/30 Tungsten Color 42 watt Triple Tube Lamp
- (1) CS-KB3084-SB Soft Bag

Overall size: 30" L x 13" W x 12" Ht.

KB3084-SB-DA Dim BABY BASEKIT

Kit Includes:

- (3) B084-242TT-DA 120 or 230 Volt On Board Dim Fixture. 84 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
- (3) BD-B084 four leaf Barn Door
- (3) MT-LOS-K folding Kit Stand
- (3) MT-MH-BS 5/8" Baby Spud mounting adapter
- (3) CB-P-16 16' Standard Power Cord
- (6) L-TT42/30 Tungsten Color 42 watt Triple Tube Lamp
- (1) CS-KB3084-SB Soft Bag

Overall size: 30" L x 13" W x 12" Ht.

FIXTURES

B084-242TT or B084-242TT-DA

This is a versatile, short throw location lighting fixture. It is very small, light weight and easy to handle or mount in tight quarters. The .063 formed aluminum housing has a textured black TGIC polyester powder coat finish. It utilizes (2) 42 watt Fluorescent Triple Tube lamps. The On Board dimming unit (B084-242TT-DA) is provided with integral dimming control.

Size: 10.875"L x 5"W x 10.81"Ht.

CASE Soft Bag Case

Sport bag style padded case is made of heavy duty PVC backed polyester. This highly water resistant, durable material covers 1/2" foam padding inside and out. Separate compartments are provided to protect the contents during travel. Double pull zipper

allows pad-lock security if desired. Heavy duty handgrips and shoulder strap with grip pad allow versatile carrying options. Fully loaded kit is only 34 pounds.

Videssence™

ExceLED KITS

SYSTEM

Three fixture kits for 25 watt LED fixtures. Available in 120 or 230 Volt, non-dim. Multi-purpose fixtures can mount in tight quarters and provide short or long throw depending on spread lens used. Heavy-duty flight case is made of fiberglass laminate, internally framed with light metal and has metal corner braces and framing. Dense foam compartments protect components. Fully loaded, 58 lbs., 25" L x 16" W x 18" Ht.

cCSAus Certified for USA and Canada. CE in process.

Non-Dim

#KE025-32K-FC-N/D

Kit Includes:

- (3) #E025-32K Fixtures (3200K)
- (3) Barn Doors, Stands & Cords
- (3) Gel Frames & Bags
- (1) Spread Lens Gels (Set of SIX)
- (1) Flight Case

Non-Dim

#KE025-56K-FC-N/D

Kit Includes:

- (3) #E025-56K Fixtures (5600K)
- (3) Barn Doors, Stands & Cords
- (3) Gel Frames & Bags
- (1) Spread Lens Gels (Set of SIX)
- (1) Flight Case

CASE

ExceLED #E100 Case

Heavy-duty flight case for the ExceLED #E100 is made of fiberglass laminate, internally framed with light metal and has metal corner braces and framing. Dense foam lining protects fixture in airline and overland transport. Recessed, spring loaded handles are provided for lifting and handling. Recessed casters for rolling. #CS-E100-FC

ExceLED #E225 Case

Heavy-duty flight case for the ExceLED #E225 is made of fiberglass laminate, internally framed with light metal and has metal corner braces and framing. Dense foam lining protects fixture in airline and overland transport. Recessed, spring loaded handles are provided for lifting and handling. Recessed casters for rolling. #CS-E225-FC

Videssence™

KOLDKITS

SYSTEM

Koldlite Lighting Kits allow safe, compact storage or transportation of your fixtures for location, ENG or OB lighting environments. The versatile fixtures and accessories provide the location lighting director with volumes of light while using minimal electricity. Each kit is complete with necessary accessories including folding stands, power cords, barn doors and two sets of lamps. All 230 volt fixtures are RoHS compliant.

Double Fixture KOLDKITS

KK2110-SC(*) KOLDKIT

Kit Includes:

- (2) K110(*) Volt Non-Dim Fixture
110 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
- (2) BD-K110 four leaf Barn Door
- (2) MT-LOS-KH folding Heavy Kit Stand
- (2) MT-MH-BS 5/8" Baby Spud mounting adapter
- (2) CB-P-16 16' Standard Power Cord
- (4) LBX55/32 Tungsten Color 55 watt Biax Lamp
- (4) L-BX55/55 Daylight Color 55 watt Biax Lamp
- (1) CS-KK2110-SC Standard Case

- (8) L-BX55/32 Tungsten Color 55 watt Biax Lamp
- (8) L-BX55/55 Daylight Color 55 watt Biax Lamp
- (1) CS-KK2220-FC Flight Case with integral wheels

Overall size: 32.5"L x 16"W x 24.5"Ht.

Measurements given are inches (B.S.U.) Ref: 1" = 2.54cm.

Single Fixture KOLDKITS KK1110-ENG(*) KOLDKIT

Our smallest available kit for lighting on the run. This single fixture Kit is very light weight and features a soft case with backpack straps for ease of handling and balancing the weight. All 230 volt fixtures are RoHS compliant.

FIXTURES K110

This is a versatile, short throw location lighting fixture. It is small and easy to handle or mount in tight quarters. The .063 formed aluminum housing has a textured black TGIC polyester powder coat finish. It utilizes two 55 watt Fluorescent Biax lamps. The fixture produces an equivalent

amount of visible light to a 1000 watt incandescent soft light, but only uses 110 watts of electricity. Size: 24.25" x 2.9" x 13.12"

	Distance				
	3ft./1.91m	6ft/1.83m	9ft/2.74m	12ft/3.66m	15ft/4.57m
FC	269	86	38	22	15
Lux	2897	926	409	237	162

CASES Standard Case

The standard field case is made of black thermal formed polyurethane material, with metal leading edges, metal corner framing and dense foam lining. It has a spring loaded carrying handle on the top of the case. This case provides protection for the fixtures,

lamps, and accessories when being stored in the field. Inside the case is compartmentalized so individual components of the kit are not damaged in transport. The layout of the case makes it possible to open it, reach the stands first, place the fixtures on the stands and go to work.

Kit Includes:

- (1) K110(*) Volt Non-Dim Fixture
110 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
- (1) BD-K110 four leaf Barn Door
- (1) MT-LOS-KH folding Heavy Kit Stand
- (1) MT-MH-BS 5/8" Baby Spud mounting adapter
- (1) CB-P-16 16' Standard Power Cord
- (2) LBX55/32 Tungsten Color 55 watt Biax Lamp
- (2) L-BX55/55 Daylight Color 55 watt Biax Lamp
- (1) CS-KK1110-ENG Soft Case

Overall size: 32"L x 5"W x 25"Ht.

* add 1= 120/volt OR add 2= 230/volt

K220

This is a powerful, high output location lighting fixture. The .063 formed aluminum housing has a textured black TGIC polyester powder coat finish. It utilizes four 55 watt Fluorescent Biax lamps and each pair can be separately switched. In full "on" this fixture produces an equivalent

amount of visible light to a 2000 watt incandescent soft light, but only uses 220 watts of electricity. Size: 24.75" x 2.9" x 17.8"

	Distance				
	3ft./1.91m	6ft/1.83m	9ft/2.74m	12ft/3.66m	15ft/4.57m
FC	435	112	52	31	21
Lux	4683	1206	560	334	221

Flight Case

The heavy duty flight case is made of fiberglass laminate, internally framed with light metal and has metal corner braces, metal corner framing and dense foam lining. There are several recessed, spring loaded carrying handles for lifting and carrying the case. The larger

unit #CS-KK2220-FC has recessed casters for rolling. The case is configured so all equipment is accessible from the top. Inside the case is divided into foam lined compartments, which protect each component in transport. This case can be shipped on airlines or overland and should provide years of service.

Measurements given are inches (B.S.U.) Ref: 1"=2.54cm.

Videssence™

MODKITS

SYSTEM

Light weight kit for easy handling features two mini versions of our Modular Series fixtures. Provided complete with stands, remote ballast box, two sets of lamps (daylight and tungsten), power cords and mounting adapters. Soft case has separate compartments to protect the contents during travel. All 230 volt fixtures are RoHS compliant.

Double Fixture MODKIT KM2055-SB MODKIT

Kit Includes:

- (2) M055-155BX 120 or 230 Volt Non-Dim Fixture 55 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications. Fixture has hardwired 15' power cord.
- (1) PD-2X55/CB-P16 Power Supply with 16' Cord
- (2) MT-LOS-KH folding Heavy Kit Stand
- (2) MT-MH-BS 5/8" Baby Spud mounting adapter
- (2) L-BX55/32 Tungsten Color 55 watt Biax Lamp
- (2) L-BX55/55 Daylight Color 55 watt Biax Lamp
- (1) CS-KM2055-SB Soft Bag

Overall size: 30" L x 9" W x 9" Ht.

FIXTURES M055-155BX

This is a versatile, short throw location lighting fixture. It is very small, light-weight and easy to handle or mount in tight quarters. The extruded aluminum housing has a textured black TGIC polyester powder coat finish. It utilizes one 55 watt Fluorescent Biax lamp. The fixture is hardwired with a 15' cord that plugs into the power supply box with remote ballast. Size: 24"L x 3.3"W x 6.4"Ht.

CASE Soft Bag Case

Sport bag style padded case is made of heavy duty PVC backed polyester. This highly water resistant, durable material covers 1/2" foam padding inside and out. Separate compartments are provided to protect the contents during travel.

Double pull zipper allows pad-lock security if desired. Heavy-duty handgrips and shoulder strap with grip pad allow versatile carrying options. Fully loaded kit is only 25 pounds.

Videssence™

SHOOTER KIT

SYSTEM

Light-weight kit for easy handling, features two small fluorescent Shooter Series fixtures utilizing (1) 57 watt Biax Q/E lamp and one mini PAR 20 7-watt LED Shadowcaster fixture. Provided complete with stands, lamps, power cords and mounting adapters. Soft case has separate compartments to protect the contents during travel.

Triple Fixture SHOOTER KIT

KSH2057P-SB SHOOTER KIT

Kit Includes:

- (2) SH057-157BXQE 120 or 230 Volt Non-Dim Fixture. 57 watt compact fluorescent multi-purpose fixture that provides even coverage for short throw studio, ENG or OB lighting applications.
 - (1) SC050-150TH 120 or 230 Volt Fixture. 50 watt PAR 20 halogen fixture for artistic design.
 - (1) BD-SC050 Barn Door
 - (1) GF-SC050 Gel Frame
 - (3) MT-LOS-K folding Kit Stand
 - (3) MT-MH-BS 5/8" Baby Spud mounting adapter
 - (3) CB-P-16 16' Standard Power Cord
 - (2) F57QBX/830/A/4P/EOL Tungsten Color 57 watt Biax Q/E Lamp
 - (1) LED, 7-watt, PAR 20, 20° Flood (Standard), OPTIONAL: Halogen
 - (1) CS-KSH2057-SB Soft Bag
- Overall size: 30"L x 13"W x 12"Ht.

FIXTURE SH057-157BXQE SHOOTER

This is a versatile, short throw location lighting fixture. It is very small, light weight and easy to handle or mount in tight quarters. The 22 gauge CRS housing has a textured black TGIC polyester powder coat finish. Permanent Intensifier/Barn Doors can focus or shield the light intensity. It utilizes (1) 57 watt Biax Q/E lamp.

Size: 10"L x 6"W x 6-1/2"Ht.

Sport bag style padded case that is made of heavy-duty PVC backed polyester. This highly water resistant, durable material covers foam padding inside and out. Separate compartments are provided to protect the contents during travel.

Double-pull zipper allows pad-lock security if desired. Heavy-duty handgrips and shoulder strap with grip pad allow versatile carrying options. Fully loaded kit is only 30 pounds.

FIXTURE SC050-150TH SHADOWCASTER

This miniature, low wattage, halogen fixture provides an artistic edge to the kit by adding hard shadows or creating additional depth in the image. It is very small, light weight and easy to handle or mount in tight quarters. Fixture is black and comes standard with Gel Frame and Barn Doors for effects and control. It utilizes (1) 50 watt Halogen PAR 20 Flood lamp. Size: 7"L x 4"W x 5"Ht.

ViewMe KITS for Video Chat Lighting

(Order Your ViewMe Kit at www.ViewMeLight.com)

SYSTEM

Totally portable **ViewMe Lights** for personal image broadcasting via web cam. These long lasting, energy efficient LED lights produce soft, comfortable, non-glaring totally indirect lighting. The design provides vertical illumination to your face without blinding you during your broadcast. They are designed to be set up at your monitor to boost the vertical light levels on your face and features to separate you from the ambient lighting around you for the camera. The Osram/ Sylvania HF2 Narrow Stick LED lamp is 3.4 watts, with 3000K color and has a rated life of 50,000 hours. Power supply is 120 – 230 volts. US orders are supplied with US, Edison plugs and European orders are supplied with 2-prong 230 volt plugs. Boxed in heavy 200# corrugated cardboard with formed foam insert, your kit is well protected for portable use. (Monitor NOT Included)

Non-Dim ViewMe-B, #KVM1004-B

Single bracket mount fixture attached to the top of your computer screen with an adjustable yoke.

Kit Includes:

- (1) #VM004-LB LED Fixture
- (1) Bracket Mount Yoke
- (1) Strip of Double Sided Velcro Tape
- (1) 120-230 Power Supply w/ plug

Non-Dim ViewMe-B2, #KVM2004-B *

Two bracket mount fixtures attached to the top or sides of your computer screen with adjustable yokes.

Kit Includes:

- (1) #VM004-LB LED Fixture
- (1) #VM004-RB LED Fixture
- (2) Bracket Mount Yokes
- (2) Strips of Double Sided Velcro Tape
- (1) 120-230 Power Supply w/ plug
- (1) Jumper Cable between Fixtures

Non-Dim ViewMe-S, #KVM2004-S *

Two stand mount fixtures can be placed on each sides of your computer screen. Weighted stands have height adjustment.

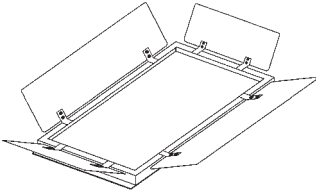

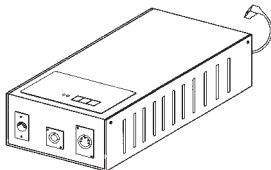

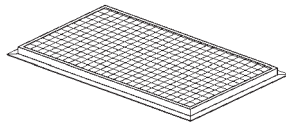

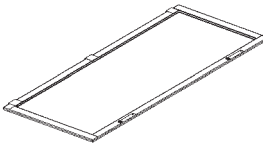

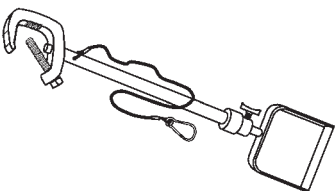

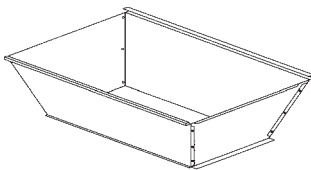

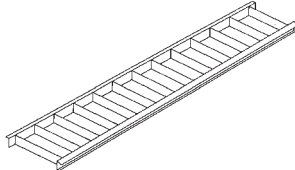

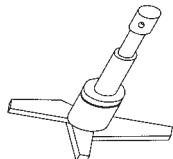

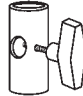

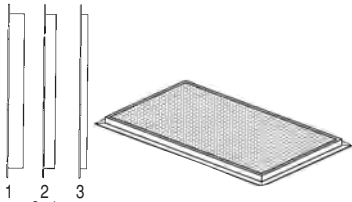

Kit Includes:

- (1) #VM004-LS LED Fixture
- (1) #VM004-RS LED Fixture
- (2) Stands w/ Adjustable Height
- (1) 120-230 Power Supply w/ plug
- (1) Jumper Cable between Fixtures

* Can't decide which mounting you would like? Order the ViewMe-SB Kit #KVM2004-SB to receive Stands & Bracket Yokes

Catalog numbers and accessory options available may be found on the back of each fixture catalog sheet. All options are not available with each fixture.

	<p>Barn Doors: Metal, four leaf hinged doors to control light spill without diminishing the intensity of the beam.</p>		<p>C-Clamp: Mounts fixture to Pipe Grid or Stirrup. Supplied as standard unless "Spud" adapter is required.</p>
	<p>DMX Analog Encoder: This is used for dimming purposes, to convert the DMX signal to an analog signal.</p>		<p>Egg Crate: Black aluminum grid used to create a medium pattern of light with a 1/2 stop reduction of light.</p>
	<p>Gel Frame: This frame is used to hold diffusion or colored gels for artistic value.</p>		<p>Hangers: (telescoping) Has attached C-Clamp, Stirrup and safety cable to extend fixture below the pipe grid.</p>
	<p>Intensifier: A reflective unit which narrows the light beam and intensifies the light output by 33%.</p>		<p>Parallel Blade Louver: Diffuse aluminum louver used to decrease the side throw of light.</p>
	<p>Scissor Clamp: Attaches to "T" structure of a T-Bar ceiling for temporary fixture installations.</p>		<p>Spud Adaptor: Mounts fixture to Location Stand, Scissor Clamp, or Baby Plate. Supplied as standard unless "C-Clamp" is required.</p>
	<p>Zone Screens: Black honeycomb screen used to control the pattern of light. Intensifier Zone Screens: Are built to fit the increased dimension of the intensifier.</p> <p>1. Narrow: Creates narrow light pattern with a full stop reduction of light. 2. Medium: Creates medium light pattern with a 1/2 stop reduction of light. 3. Wide: Creates a wide light pattern with a 1/4 stop reduction of light.</p>

FIXTURE MOUNTING (mount fixtures with various hardware options)

Part #	Description
MT-MH-CCE	Extruded C Clamp, (non-adjustable, extruded) to mount Fixture to pipe grid or Stirrup.
MT-MH-CCH	Heavy Duty C-Clamp, (adjustable) to mount Fixture to pipe grid or Stirrup.
MT-MH-SC	Drop-Ceiling Scissors Clamp, to mount fixtures to the "T" of the T-Bar structure.
MT-MH-B5	5/8" Baby Spud, adapter to mount fixture to Location Stand, Scissor Clamp or Baby Plate.
MT-MH-JS	1 1/4" Jr. Spud, adapter to mount fixture to Location Stand, Scissor Clamp or Baby Plate.
MT-MH-S	Stirrup, attaches to the bottom of hangers to allow C-Clamp mounting of fixtures.
MT-MH-SSC	24" Safety Suspension Cable, provides additional safety by securing fixtures to the structure.
MT-MH-BP3	3" Baby Plate, permanently secured plate to mount fixture with Spud adapter.
MT-MH-BP6	6" Baby Plate, permanently secured plate to mount fixture with Spud adapter.

LIGHT DUTY HANGERS (extends Fixtures with Stirrup & C-Clamp below the pipe grid)

Part #	Description
MT-LH-12	1' x 2' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-LH-24	2' x 4' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-LH-36	3' x 6' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-LH-48	4' x 8' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-LH-510	5' x 10' Adjustable telescoping hanger with heavy duty pipe clamp.

HEAVY DUTY HANGERS (extends Fixtures with Stirrup & C-Clamp below the pipe grid)

Part #	Description
MT-HH-3	3' Single telescoping hanger with heavy duty pipe clamp.
MT-HH-4	4' Single telescoping hanger with heavy duty pipe clamp.
MT-HH-6	6' Single telescoping hanger with heavy duty pipe clamp.
MT-HH-36	3' x 6' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-HH-48	4' x 8' Adjustable telescoping hanger with heavy duty pipe clamp.
MT-HH-510	5' x 10' Adjustable telescoping hanger with heavy duty pipe clamp.

LOCATION STANDS (folding, tripod stands to mount Fixtures with Spud adapters)

Part #	Description
MT-LOS-K	Kit Stand – 36" base, 29.5" to 93.5" height, for 9lbs maximum.
MT-LOS-KH-4	Kit Stand – Heavy, 32" base, 22.5" to 83.5" height, for 11lbs maximum.
MT-LOS-2	Low Boy – 26" base, 39" to 100.5" height, for 20lbs maximum.
MT-LOS-3	Medium Low Riser – 43" base, 39" to 100.5" height, for 25lbs maximum.

DIMMING CONTROLS

VISTA 10 Control Console

SYSTEM

The VISTA 10 is a twelve channel “plus” control console designed for studio lighting systems. It may be used with up to 512 dimmers. The console stores a distinct look on each of its sliders through a full proportional softpatch. Smooth fades from one look to another are made either through a special hold mode that retains the first scene while another scene is set or through standard theatrical crossfade controls. A hypertext menu on a backlit LCD display guides the user through all operations. The patch is saved automatically and held indefinitely.

SPECIFICATION

Console Housing: Anodized aluminum faceplate mounted onto a durable one piece ABF plastic housing, U.L. rated 94HB.

Electrical: 120 volt standard or 230 volt optional.

Features:

- 12 Channels plus
- Standard DMX output for 1 to 512 Dimmers
- LCD Display
- Hypertext menu operation
- Full overlapping, proportional softpatch
- Grand master slider
- Split, dipless crossfaders
- Hold and Fade Mode

OPTIONS *(Must Specify)*

Voltage 120 Volts
 230 Volts

DIMMING CONTROLS

VIDStrip Four Channel Dimmer Strip

DC 4X600

SYSTEM

The #DC-4X600 VIDStrip is a plugging system containing (4) 600 watt dimmers and can be used for permanent or touring applications. The VIDStrip is designed to provide cost effective control for today's lower wattage fluorescent and incandescent lighting fixtures. It is ideal for new installations, decreasing the need for costly permanent circuits to each fixture. Upgrading older, non-dim studios can be as easy as hanging the VIDStrip and plugging to existing studio circuits.

SPECIFICATION

Housing: Formed, .063 aluminum with black TGIC polyester powder coat finish and silk screened face.

Power: 120VAC/60Hz or 220VAC/50-60Hz.

Capacity: 20 amps maximum.

Fused Output: 5.0 amp (4)

Connector: Input – 125V, 20amp twist-lock inlet.
Output – Duplex NEMA #5-15R PBG (2)

Protocol: USITT DMX512 with 250k baud rate. LED (green/red) indicator. Auto hold indefinitely. Direct On capabilities.

Mounting: Brackets are provided for mounting to pipe grid.

Fixture Includes:

- Four 600 watt dimmers
- One Circuit Breaker per outlet
- LED power indicator per dimmer
- Modular thyristors with heat sink
- Dim/Non-Dim selectable
- On without DMX selectable
- Recessed 20 amp GTL power outlets
- 3 Position DMX start address
- DMX auto-hold at signal loss
- DMX signal LED
- DMX pass-thru port

OPTIONS *(Must Specify Each)*

Power Cable: 12/3 SO 20 amp grounded
(15, 25, 50, 75 or 100 foot available)

Contol Cable: DMX 5-pin XLR
(15, 25, 50, 75 or 100 foot available)

MODEL

DC-4x600 VP 4X600-Four Channel Dimmer Strip

WEIGHT

Lbs

Kg

DIMENSIONS

Inches

Cm

Complete	10	4.5	Length	48	121.9
			Height	4	10.2
			Width	3	7.6

Measurements given are inches (B.S.U.) Ref: 1" = 2.54cm.

Easy Installation

1. Hang Strip above the pipe grid.
2. Attach power from the end of the strip to a grounded twistlock outlet.
3. Plug the DMX cable into the control console (or a DMX port in the studio).
4. Turn on your control console.
5. Softpatch your lighting console to the appropriate dimmer # and turn on the fixture.

Typical Phase Control Dimming with Vista 10 Control Console & VIDStrip

Typical DMX Dimming with Vista 10 Control Console & DMX Analog Encoder

DIMMING CONTROLS

VIDStrip DMX Dimmer Strips

DC-DMX4 & DC-DMX4-PS

SYSTEM

VIDStrip-DMX4 – Dimmer Strip

This DMX VIDStrip provides (8) Power outlets and (4) DMX output circuits in addition to DMX in and out pass through conveniently mounted in your grid. It is designed with opto-isolator surge protector for the (4) DMX fixture circuits and has indicator lights for power and DMX. The 20 amp unit has L520 locking plugs for power in and out.

VIDStrip-DMX4-PS – Dimmer Strip w/ Power Shutoff

This DMX addressable VIDStrip has the same function as a DMX4, but is able to shut off power to the VIDStrip via a Control Console. Any fixture that is plugged into the DMX4-PS will be turned off from the Control Console.

SPECIFICATION

Housing: Formed, .063 aluminum with black TGIC polyester powder coat finish and silk screened face.

Power: 120VAC/60Hz or 220VAC/50-60Hz

Capacity: 20 amps maximum.

Connector: Input – 125V, 20amp twist-lock inlet.
Output – Duplex NEMA #5-15R PBG (2)

Mounting: Brackets are provided for mounting to pipe grid.

Features:

- Eight Power outlets.
- Four DMX output circuits.
- LED power indicator.
- Recessed 20 amp GTL power outlets
- DMX signal LED
- DMX pass-thru port
- L520 locking plugs for power in and out
- Opto-isolator surge protector.

OPTIONS *(Additional Charge)*

Power Cable: 12/3 SO 20 amp grounded
(15, 25, 50, 75 or 100 foot available)

Control Cable: DMX 5-pin XLR
(15, 25, 50, 75 or 100 foot available)

MODEL

DC-DMX4 (4) DMX outputs/pass throughs & (8) Power Outlets

WEIGHT			DIMENSIONS		
	Lbs	Kg		Inches	Cm
Complete	11	5	Length	48	121.9
			Height	4	10.2
			Width	3	7.6

MODEL

DC-DMX4-PS (4) DMX outputs/pass throughs & (8) Power Outlets w/ Power Shutoff

WEIGHT			DIMENSIONS		
	Lbs	Kg		Inches	Cm
Complete	12	5.5	Length	48	121.9
			Height	4	10.2
			Width	3	7.6

Measurements shown are inches (B.S.U.) Ref: 1" = 2.54cm.

Easy Installation

1. Bolt the VIDStrip-DMX4 (-PS) into place on your grid and plug in a L520 Locking Power Cord.
2. Plug DMX fixtures into the power outlets and the (4) DMX Circuits in the VIDStrip-DMX4 (-PS).
3. Each DMX fixture can be individually addressed or grouped.
4. Plug into your control console with a 5-Pin XLR cable.
5. Turn on your control console.

Typical DMX Dimming with ETC Control Console & VIDStrip-DMX4

This power strip provides (8) Power outlets and (4) DMX output circuits in addition to DMX in and out pass through conveniently mounted in your grid. It is designed with opto-isolator surge protector for the (4) DMX fixture circuits and has indicator lights for power and DMX. The 20 amp unit has L520 locking plugs for power in and out.

- ① Place the ETC SmartFade® into place and plug in Power Cord to power the unit.
- ② Plug DMX fixtures into the power outlets and the (4) DMX Circuits in the VIDStrip-DMX4. Additional DMX fixtures may be daisy chained from the fixtures plugged into the strip. (Shown with the left two fixtures)
- ③ Each DMX fixture can be individually addressed or grouped. When using the ETC SmartFade®, 12 channel two-scene modes with timed fades are available. It has 96 channel normal mode with 288 memories and fully programmable 199 step cue stack and 24 step sequences (chases) (48 available).
- ④ Connect the VIDStrip-DMX4 to the ETC SmartFade® Control Console with a standard DMX 5-Pin XLR Cable (available in Various lengths) and plug the power cable to the console.

CONTROL CONSOLES & POWER DISTRIBUTION

DIMMING CONTROLS

Part #	Description
DC-MDC-1	MDC-1, Analog Hand-held control for use with 0-10 analog dimming.
DC-512-S	DMX-512 Standard Fixture Mount for use with 0-10 analog dimming.
DC-513-S	DMX-512 3 x 3 box for use with 0-10 analog dimming.
DC-DMXT	DMX Terminator – returns DMX signal at the end of the run.
DC-V-10	VISTA 10 12-ch/DMX – Dimming Control Console.

POWER DISTRIBUTION

Part #	Description
DC-4X600	VP 4 X 600 – Four channel dimmer strip – Must specify a Power Distribution Cable (see below)
DC-DMX4	VIDStrip DMX4 – Four DMX outputs/pass throughs & (8) Power Outlets. Specify Power Distribution Cable.
DC-DMX4-PS	VIDStrip DMX4-PS – Same as the “DMX4” with the addition of Power Shutoff. Specify Power Distribution Cable.
PD-2X55/CB-P16	Power supply box with 16’ cord to power (1) or (2) 55 watt Biax fixtures. (for MODKIT)

CB-P-GTL	16’ Power Cord with GTL – Grounded Twist Lock Plug	16’	4.8

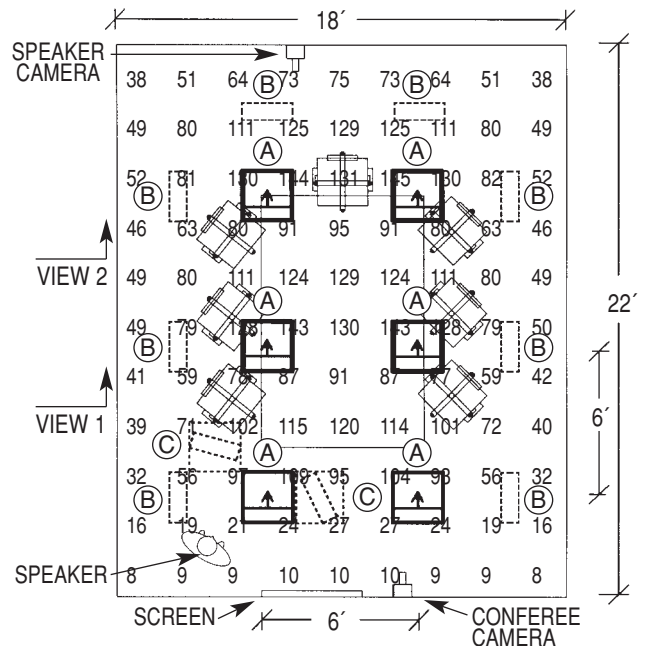

SYSTEM

- Ideally suited when the architectural esthetics of the space is important.
- Total recessed system that requires no aiming after permanent installation.
- Provides low light levels at the monitor for good contrast and keeps direct light off of the camera.
- Comfortably illuminates Conference Participants for video applications.
- Dim fixtures for standard conference applications. Dual lighting systems not required!
- Shipped standard with dimming ballast.

LAYOUT

These unique 2' x 2' fixtures are ideal for T-Bar or hard ceiling installations for multi-use video spaces. They create ideal light levels at the proper angle to minimize shadows at the eye sockets and under the nose and chin.

Fixtures placed properly in a 6' x 6' pattern in a typical 8' ceiling will comfortably illuminate the participants in a video conference to proper light levels. Cameras vary, but most render a good image on the monitor when the conferees are lit to a minimum of 50 to 75 foot candles.

PLAN / LIGHT LEVELS AT 2'-6" HEIGHT

FIXTURES (T-Bar Catalog Numbers Below)

120 Volt Dimming (DFA1-1)

Type	Qty	Model	Description
(A)	6	S110-255BX-TB-D/PM-120	Softlite w/ Phase Control Dim (Lights the Conferees)
(B)	* 8	SW055-155BX-TB-D/PM-120	Softwash w/ Phase Control Dim (Lights the Walls)
(C)	* 2	SK110-255BX-TB-D/PM-120	Softkey w/ Phase Control Dim (Lights the Speaker)

277 Volt Dimming (DFA1-277)

Type	Qty	Model	Description
(A)	6	S110-255BX-TB-D/PM-277	Softlite w/ Phase Control Dim (Lights the Conferees)

(C)	* 2	SK110-255BX-TB-D/PM-277	Softkey w/ Phase Control Dim (Lights the Speaker)

230 Volt Dimming (DFA1-2)

Type	Qty	Model	Description
(A)	6	S110-255BX-TB-DA-230	Softlite w/ 0-10 Analog Dim (Lights the Conferees)
(B)	* 8	SW055-155BX-TB-DA-230	Softwash w/ 0-10 Analog Dim (Lights the Walls)
(C)	* 2	SK110-255BX-TB-DA-230	Softkey w/ 0-10 Analog Dim (Lights the Speaker)

* Many of these spaces can be lit entirely with Type "A" Softlite alone, however, if you have a key speaker location or require separate control of the light levels on the walls, consider the use of Type "B" Softwash and "C" Softkey.

Note: Fixtures must be connected to compatible dimming control equipment

SECTION / LIGHT LEVELS AT VIEW 1

SECTION / LIGHT LEVELS AT VIEW 2

SECTION / LIGHT LEVELS ON SCREEN WALL

Light levels shown are generated from Type "A" alone.

SYSTEM

- Single Camera/Single Talent lighting solution.
- Light weight fixtures can be hung from suspended ceilings.

LAYOUT

This package is intended for use in a single-camera/ single-reporter position in a newroom.

Suspend fixtures from the ceiling by scissor clips in a triangular pattern. The front fixtures should be hung no more than 6' from the talent while the back light is hung just slightly behind the talent. The backlight should be no more than 6' above the talent's head. If mounted properly an aggregated light level of 60-80 foot candles above the ambient light will fill the talent zone. With all fixtures "full-on," power consumption is less than 160 watts. Adjustable hangers are available if required.

COMPONENTS

Gel Frame
Snoot
Little Vid LED w/DMX Dim Fixture w/ permanent Barn Doors
Magnet Gel Holders
Drop Ceiling Scissor Clamp
12 Channel ETC SmartFade® Console **
25' DMX Cable
50' DMX Cable

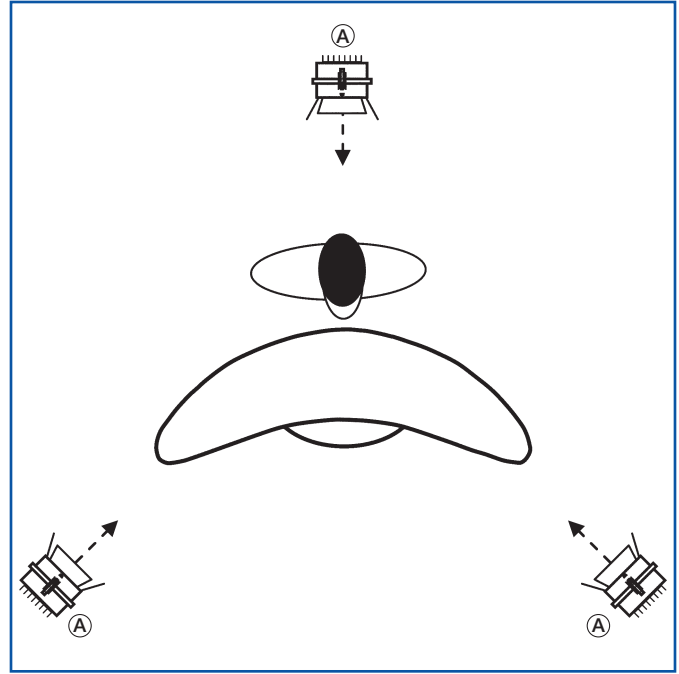

SYSTEM

- Small desk/Single camera/Single Talent lighting solution.
- Light weight fixtures can be hung from suspended ceilings.

LAYOUT

This package of equipment is designed to light a single small desk with 1 presenter for a single camera in grid or low ceiling.

The backlight should be no more than 6' above the talent's head. The front fixtures are designed to be used 6'-8' from the talent and 7'-8' off the ground. If mounted properly an aggregated light level of 60-80 foot candles above the ambient light will fill the talent zone. With all fixtures "full-on," power consumption is less than 160 watts. Adjustable hangers are available if required.

COMPONENTS

120 TO 230 Volt Dimming (DSPS-L-OB) for Drop Ceiling

Type	Qty	Model	Description

SYSTEM

- Light a small single desk with two presenters.
- Lightweight fixtures can be hung from suspended ceilings.

LAYOUT

This package of equipment is designed to cover a single small desk with 2 presenters sitting side by side or a small 2-person interview set.

Type B Backlights should be no more than 6' above the talent's head. The Type A fixtures should be crossed from each side, 8' from the talent and 7' to 8' off the ground. Type B fixtures at the front for key lighting should also cross shoot, 8' from talent at 8' to 9' off the ground. Adjustable hangers are available if required. With all fixtures "full-on," power consumption is less than 230 watts.

COMPONENTS

120 Volt DMX Dimming (DDPS-WL-DMX-1)

SYSTEM

- Designed for medium sized desk or table with up to 4 presenters.
- Provides attractive medium sized “pool” of light for talent zones.
- Lightweight fixtures can be hung from suspended ceilings.

LAYOUT

This package is intended for up to 4 people around one side of a medium sized table or a small interview set.

Type B Backlights should be no more than 6’ above the talent’s head. The center Type A fixture should be 8’ from the talent and 7’ to 8’ off the ground. The remaining Type A fixtures should be crossed from each side, at the same height and distance as the center fixture. Type B fixtures at the front for key lighting should also cross shoot, 8’ from talent at 8’ to 9’ off the ground. Adjustable hangers are available if required. With all fixtures “full-on,” power consumption is less than 400 watts.

COMPONENTS

120 Volt DMX Dimming (D4PDS -WL-DMX-1)

Type	Qty	Model	Description
(A)	3	P110-255BX- DMX -120	Power Key, Focusable w/ DMX

	4	BD-VN080	Barn Door
	4	GF-VN080	Gel Frame
	*	1	DC-ETC-1296
*	4	DC-DMX-4	4 Circuit DMX 20 amp Power Strip
*	4	CB-D-GG15	15’ Power Cable (GTL Plug)
*	16	CB-C-DMX15	15’ DMX Cable
*	1	CB-C-DMX25	25’ DMX Cable

SYSTEM

- Fully illuminate an 8' x 10' chromakey wall and presenter.
- Additional lighting for backlight accent on Talent will not affect chromakey.
- Light weight fixtures can be hung from suspended ceilings.

LAYOUT

This package is designed to light a single-talent position and small Chromakey wall.

Fixtures are positioned in a triangular pattern with the talent facing the apex of the triangle. If mounted properly an aggregate light level of 75-100 foot candles above the ambient light will fill the talent zone. With all fixtures "full-on," power consumption is less than 220 watts. Adjustable hangers are available if required.

SYSTEM

- Creates medium sized “pool” of light.
- Lighting is attractive, comfortable.
- Ideal for newsroom or “work” environments.
- Light weight fixtures can be hung from suspended ceilings.
- Available in non-dimming and dimming configurations.

LAYOUT

This package is designed to surround a single Talent position with fixtures in a low ceiling environment.

Three fixtures are suspended from the ceiling by scissor clips in a triangular pattern with the Talent facing the apex of the triangle. If mounted in the proper configuration an aggregate light level of 60-80 foot candles above the ambient light will fill the Talent zone. With all fixtures “full on,” power consumption will be less than 400 watts.

COMPONENTS

120 Volt Non-Dimming (NDFP6-1)

Type	Qty	Model	Description
Ⓐ	3	M110-255BX-120	Modular Non-Dim Fixture
	3	MT-MH-BS	Baby Spud 5/8"
	3	MT-MH-SC	Drop Ceiling Scissor Clamp

120 Volt Dimming (DFP6-1)

Type	Qty	Model	Description
Ⓐ	3	M110-255BX-D/PM-120	Modular w/ Phase Control Dim
	3	MT-MH-BS	Baby Spud 5/8"
	3	MT-MH-SC	Drop Ceiling Scissor Clamp

Note: Fixtures for #DFP6-1 must be connected to compatible dimming control equipment.

230 Volt Non-Dimming (NDFP6-2)

Type	Qty	Model	Description
Ⓐ	3	M110-255BX-230	Modular Non-Dim Fixture
	3	MT-MH-BS	Baby Spud 5/8"
	3	MT-MH-SC	Drop Ceiling Scissor Clamp

230 Volt Dimming (DFP6-2)

Type	Qty	Model	Description
Ⓐ	3	M110-255BX-DMX-230	Modular w/ DMX Dimming
	3	MT-MH-BS	Baby Spud 5/8"
	3	MT-MH-SC	Drop Ceiling Scissor Clamp
	*1	DC-V-10	12 Channel Vista 10 Control
	*2	CB-C-DMX25	25' DMX Cable
	*1	CB-C-DMX50	50' DMX Cable

SYSTEM

- Illuminate a single desk with two presenters.
- Creates a high level “pool” of medium zone lighting.
- Excellent for:
 - Bureaus/Newsrooms or small presentation studios.
 - Distance learning environments.
 - Large Chromakey wall.
- Light weight fixtures can be hung from suspended ceilings.
- Available in non-dimming and dimming configurations.

LAYOUT

This package is designed to light a single small desk with 1 or 2 Talent positions.

Single Modular unit is used for backlight for both positions from no more that 6’ away. Two Modular Double units are crossed (see illustration) on the Talent positions, 7’ from talent and 7’-8’ off of the floor. Adjustable hangers are

available if required. Light level will average 90-120 fc in the talent zone and on the wall. With all fixtures “full on,” power consumption will be less than 600 watts.

COMPONENTS

120 Volt Non-Dimming (NDFP7-1)

Type	Qty	Model	Description
(A)	1	M110-255BX-120	Modular Non-Dim Fixture
(B)	2	M110-255BX2-120	Modular Non-Dim Fixture

Note: Adjustable hangers may be required

120 Volt Dimming (DFP7-1)

Type	Qty	Model	Description
(A)	1	M110-255BX-D/PM-120	Modular w/Phase Control Dim
(B)	2	M110-255BX2-D/PM-120	Modular w/Phase Control Dim
	*1	DC-V-I0	12 Channel Vista 10 Control
	*1	DC-4X600	VID Strip 4 circuit X 600 watts
	*1	CB-C-DMX50	50’ DMX Cable
	*1	CB-D-GG15	15’ Power Cable (GTL Plug)

Note: Adjustable hangers may be required

230 Volt Non-Dimming (NDFP7-2)

Type	Qty	Model	Description
